### DETAILED ACTION

The applicant has cancelled claims 1-4, 6, 7, 9-12 and 15-27 and amended claims 5, 8, 13 and 14 in the amendment dated 8/14/06. Pending claims 5, 8, 13 and 14 are examined below.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5, 8, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 4,329,827 to Thorn.

Regarding claim 5, Thorn discloses a hollow panel (Figure 5) comprising first hollow portions with a first width and second hollow portions arranged in the same plane and with a second width different than the first width, wherein the partition walls (4) are made of wood (column 2, last line). In addition, Thorn discloses a flat outer side portion (fig. 5: far left 4) between the hollow portions and made as the same material (as inner walls 4 of fig. 5).

Regarding claims 8, 13 and 14, discloses a hollow panel (Figure 5) comprising first hollow portions (fig. 5: cavity adjacent the number 2) with a first width and second hollow portions (cavity between numbers 4 in fig. 5) arranged in the same plane and

Art Unit: 3635

with a second width different than the first width, wherein the partition walls (4) are made of wood (column 2, last line). In addition, Thorn discloses a solid portion forming member (fig. 5: 5) is disposed at a part of the first and second hollow portions with a section shape that corresponds to the shape of the part, the member (5) being located outside (not inserted into) of the hollow portion (the hollow portion being the area between members 5 and between where the numbers 4 point).

### ***Response to Arguments***

Applicant's arguments filed 8/14/06 have been fully considered but they are not persuasive. Applicant argues the differences between the prior art cited in the previous rejection with the currently amended limitations. The rejection above address the amended limitations with regard to the prior art. Regarding claim 8, the applicant argues that Thorn does not teach a solid portion forming member. However, as noted in the rejection above, Thorn teaches this component, as the structural limitation in the claims are broad and are limited to only the name of the object claimed.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3635

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
